REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The closest prior art, 5,871,668, uses a polymeric coating on the metal bar to protect from corrosion, not an additive to the grout. The composition of the coating is completely different from the additive claimed by the instant application. While the additive is known as fluid loss additive to cement, there is no conceivable reason to add it to the grout composition used with a post-tensioned hydraulic cementitious grout article.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is (571) 272-1124. The examiner can normally be reached on 7:00 a.m.-5:30 p.m. Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on (571) 272-1119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
